## How it works

- 1. Write down the amount you spend on your packet of smokes in the first column.
- 2. In each box lettered for everyday of the week, write the number of packets you bought that day.
- 3. The figure you have written in the first column, times that by the amount of packets you have bought that week.
- 4. Add all the amounts up over the 10 weeks and record your total in the box below.
